

Music Labelling for Competitions

The ISU have endorsed the use of electronic music for competitions and this method is now widely used in Australia as well as overseas.

In Queensland and most other states, skaters entering a competition will be asked to upload their music electronically at time of entry.

The Ice Skating Australia's (ISA) music protocol should be used when preparing music for submission. Music must be labelled correctly and saved in the required format to enable online submission, correct downloading and sorting according to the skater's level, ready for competition.

Listed below is an extensive list of samples to assist you with labelling your music correctly.

Please note:

- 1) Before submitting music, it is your responsibility to:
 - a. Check the file has been named and saved as per the ISA Music Policy.
 - b. Listen to the saved music carefully to check it is the correct soundtrack, for your division and segment (SP/FP).
 - c. Check the volume has been recorded properly and that it plays to the correct time.
- 2) Music will be returned to the skaters email address for correction if it is not labelled correctly or in the required format.
- 3) The organising committee is not responsible for your music. Failure to provide correctly labelled music will mean your competition entry is invalid.
- 4) The music volunteer is not permitted to change the volume during the performance, so please do not write instructions for playing.
- 5) Please remember to bring a backup copy on the required device. This will vary depending on the requirements of the organising committee and will be stipulated on the competition announcement. Iceworld Figure Skating Club use USB-A but other competitions may require CD. This is to be submitted to the registration desk at time of registration. One program per device and this copy will need to be labelled with the skater's full name, level, program & music run time.

As per the ISA Protocol music is labelled **Division_Segment_Name_RunTime**
